• Mumbai • 5/2004 • Indian

Summary

Software Developer with professional experience in Microsoft Power Platform, SharePoint, and full-stack web development. Currently working as a PowerApps, SharePoint, and Power Automate Developer, building enterprise business applications, workflow automation, and SharePoint solutions. Experienced in developing full stack applications using the MERN stack (React, Node.js, Express.js, and MongoDB) and proficient in C++, PHP, Java, and SQL. Passionate about designing scalable, user centric solutions, automating business processes, and continuously expanding technical expertise across modern web and Microsoft technologies.
